

Project Demo Planning

Date	7/7/2026
Name	Y Varshith
Project Name	Smart Lender
Maximum Marks	1Marks

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the Smart Lender – Loan Eligibility Prediction System, explain the project objectives, problem statement, and expected outcomes.	2	Self
2	Solution Overview	Explain the system architecture, workflow, dataset, preprocessing techniques, Machine Learning model, and technologies used.	2	Self
3	Application Demonstration	Launch the Flask application, enter sample applicant	3	Self

		details, perform real-time loan eligibility prediction, and display both Approved and Rejected results.		
4	Feature Explanation	Explain implemented features such as input validation, preprocessing, model integration, responsive UI, result page, and rejection suggestions.	3	Self
5	GitHub Repository & Documentation	Demonstrate the GitHub repository structure, source code organization, project documentation, and deployment files.	2	Self
6	Conclusion & Future Enhancements	Summarize project achievements and discuss future enhancements.	2	Self

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain project objectives and need for loan eligibility prediction.
2	Solution Overview	Present architecture, workflow, ML model, preprocessing and Flask integration.
3	Live Feature Demonstration	Demonstrate Approved and Rejected predictions with sample data.
4	Q&A Session	Answer questions on model, accuracy, limitations and future.
